STRATEGIC COLLABORATIVE FUND
Fostering collaboration for sustainable development

SEI Asia, with support from the Swedish government (Sida), launched the Strategic Collaborative Fund Phase 2 (SCF) programme in 2018 to enhance the current 2030 Agenda efforts in Asia and the Pacific. SCF aims to foster regional and inter-regional cooperation, partnership and policy dialogues for sustainable development and environmental sustainability through capacity building, knowledge sharing, and strengthened collaboration.

In 2020, despite the COVID-19 pandemic, SCF delivered it goals by maximizing virtual platforms to extend it outreach to transboundary partners in Asia-Pacific and beyond.

1. Mainstreaming human rights and gender
In collaboration with Raoul Wallenberg Institute (RWI), evidence-based human rights and gender equality approaches are integrated throughout programme implementation through capacity building such as direct coaching and providing open online courses.

2. Strengthening inter-regional cooperation
The Asia-Europe Environmental Forum organized by the Asia-Europe Foundation, focused on Sustainable Consumption and Production, brought diverse perspectives of antimicrobial resistance, sustainable garments, single-use plastics and inclusive food value chains.

SEI led the discussion on inclusive food value chains and highlighted the need to shift from the dominant food systems model that relies heavily on chemical input, monoculture, and large industrial systems. Policies that help secure tenure for small-scale farmers and indigenous peoples; and multi stakeholders and multi-rights holder platform are crucial for the shift to a more sustainable and equitable food value chain.
SCF - SEI Strategy for change

Reduced climate risk
1. Setting a global scene and opportunities to influence political environments and support family farming and smallholder farmers
2. Foster formation of multi-stakeholder platforms and strategies to promote farmers’ rights, welfare, and economic empowerment
3. Strengthen regional collaboration related to climate change, water security, water management, and conservation
4. Advocacy in confronting unjust power structures faced by Women Environmental Human Rights Defenders and promoting gender equity
5. Connected with existing civil society networks and women’s rights movements working on land-grabbing and natural resource management issues
6. Provide practical resources to strengthen NNGS’ group resilience to climate related and other natural hazards
7. Amplifying youth voices in addressing gaps in policies and building a resilient world
8. Filling the gap of DRR policies across the region and actions to strengthen the regional networks and youth movement.

Sustainable resources use and resilient ecosystem
1. Public-private engagements that have led to the acceleration of climate solutions
2. Drive climate finance solutions in Asia.
3. Provides a platform for multi-stakeholder cooperation to support features insights from its research on SDGs and Climate Change
4. Global discussions on Sustainable Consumption and Production

Improved health and well-being
1. Enhance capacity in citizen science approaches to protect people’s health and environment
2. Platform for regional stakeholders to discuss and advance citizen science approaches towards environmental justice
3. Citizens’ empowerment, gender equity, and health promotion in addressing pollution from toxic chemicals

Achieving the 2030 agenda
SCF provides opportunities for multi-stakeholder engagement platforms to enhance regional collaboration across Asia, inter-regional policy development and institutional capacity with boundary partners.

From 2018 to 2022, SCF will create long-term partnerships, under the framework of regional integration and the SDGs.

1. Type of outcome
2. Impact area

17 PARTNERSHIPS FOR THE GOALS
9,098 PARTICIPANTS
8 PARTNERS
88 EVENTS SESSIONS
10 COVERED COUNTRIES

_Updated at Joint Collaboration, Declaration, Commitment, Coalition, Learning, Research, Policy, Action, Implementation._

Promoting Regional Dialogue

The programme provides technical and financial support for initiating, organizing, and hosting strategic regional events that highlight key issues that are linked to the 2030 Sustainable Development Agenda. The goal is to enhance regional collaboration and partnership to lead efforts toward policy development and regional sustainability.

AGRICULTURE 180

1. Sustaining Family Farming in Asia Through Inclusive, Farmer-Driven Approaches
   Partner: Asian Farmers’ Association for Sustainable Rural Development (AFA)

   Focus & Highlights:
   - Aimed to promote and strengthen multi-actor partnerships and contribute positive policy changes to support family farming in line with the UN Decade of Family Farming (UNDFF).
   - Emphasized the critical role of family farmers in transforming agriculture and food systems.

2. The Climate Finance Track at the AVPN 2020 Virtual Conference
   Partner: Asian Venture Philanthropy Network Limited

   Focus & Highlights:
   - Offered a deep dive into innovative financial instruments that can help facilitate the transition towards a low-carbon economy and enable effective adaptation.

3. Women, Water, Climate: Tackling the Challenges
   Partner: Women for Water Partnership (WfWP)

   Focus & Highlights:
   - Provided the platform to promote crucial dialogue between experts, youth water professionals and women community leaders in tackling key challenges surrounding water, climate and women.
   - Organized by WfWP in partnership with NetWwater (NWW) and Soroptimist International of the South West Pacific (SISWP).
PREVENT AND REDUCE URBAN POLLUTION FROM TOXIC CHEMICALS

IPEN-SEA Virtual Conference 2020: Citizen Science in Southeast and East Asia
Partner: EcoWaste Coalition Philippines

Focus & Highlights:
- Offered a platform for regional stakeholders to discuss and advance citizen science approaches towards addressing pollution from toxic chemicals, showcasing the experience of NGOs and communities.
- Featured various perspectives of citizen science in addressing development goals, gender equality and policy outcomes as well as protection of citizen’s health from urban pollution effects.

CLIMATE CHANGE ADAPTATION

Platforms for the inclusion of non-normative genders and sexualities (NNGS) in CCA policy and action
Partner: The University of Auckland

Focus & Highlights:
- Provided a first step in acknowledging the challenges NNGS face alongside their great capacity to adapt to climate change and participate in local-level resilience building efforts.
- Participants highlighted their strong capabilities through strong social networks, local wisdom and solidarity.

GENDER

Grounding and Empowering: Nourishing the Grassroots for Transformative Change
Partner: Non-Timber Forest Products Exchange Programme Asia (NTFP-EP Asia)

Focus & Highlights:
- Highlighted the effective approaches rooted on cultural values, knowledge, and the successes of grassroots women environmental defenders working on current issues related to land-grabbing and natural resource management.
- Identified and shared successful and resilient activism strategies and facilitated the planning of collective interventions in national and regional policy processes.

DISASTER RISK REDUCTION

Asia Pacific Researchers, Practitioners & Policy-makers in Dialogue with Children & Youth
Partner: Children and Youth International (CYI)

Focus & Highlights:
- Promoted and advocated research to safeguard child rights in the context of environmentally hazardous events through the sharing of best practices on DRR and youth involvement.
- Leveraged the knowledge on regional youth activities and its policy implication in the region through informing the policy mechanism of the Asia Pacific Ministerial Conference for Disaster Risk Reduction (APMCDRR).
