

# ABOUT US

- Non-profit organization founded in 2004
- Our goal - put used things back in circulation and make re-use easily accessible and commonplace for everyone in Estonia
- We believe that things that are still usable, don't deserve to end up in a landfill
- We try to find a solution to overconsumption and overburdening landfills

# OUR CHALLENGE

- Each month - 40 tons of textiles what we cannot send into circulation
- Quantities are growing
- Clothes and textiles what you cannot use for specific purposes (too worn, broken, dirty)
- Right now there are no current solution in Estonia to send those kind of textiles into circulation
- We are looking for solutions to keep those kind of materials in circulation since sending into landfill would be the last option

# LOOKING FOR...

- Partners who can also proceed with lower quality textiles
- Recycling industry/ recycling facilities/ markets
- Partners who are interested in some materials
- We are open for pilot projects – new technologies and business models
- Any suggestions and ideas

# POLICY GOALS

- Establish a thriving recycling sector in the region
- Increase collaboration between industry stakeholders to increase reuse and recycling of used textiles
- Increase collaboration between municipal waste companies and reuse/recycling organisations to ensure reusable items in separate collection by municipalities find markets
