

Inclusive Resilience: Science and Assessment Enhancing Resilience across borders: using science to call for regional action in the HinduKush Himalaya

7TH ASIA-PACIFIC
CLIMATE CHANGE
ADAPTATION FORUM

10.03.2021

11:15 (GMT +7); 13:15 (GMT +9)
Duration: 90 mins

Session Chair

Dr. S.V.R.K Prabhakar
Senior Policy Researcher and
Research manager, Institute
for Global Environmental
Strategies

Keynote

Prof. Kristie Ebi
Professor, University of
Washington, IPCC Lead
Author

Panellist

Dr. Arun Shrestha
Senior Climate Change
Specialist and Programme
Manager, ICIMOD

Panellist

Mozaharul Alam
Regional Coordinator,
Climate Change for Asia
and the Pacific Office,
UNEP

Panellist

Frida Lager
Research Associate,
Stockholm Environment
Institute

The Road to UNFCCC COP26

Dhrupad Choudhury
Chief Scaling Operations,
ICIMOD

This session will provide present scientific understanding on transboundary climate risks and the implications for inclusive resilience in the HinduKush Himalaya (HKH) region. It will also discuss the role of National Adaptation Plans and other commitments in the HKH region and highlight the gaps to address Inclusive Resilience. The session will also feature an interactive session with the participants to draw suggestions for immediate action, and will conclude by a short summary of key messages and recommended climate actions that need to be taken forward to COP26.
